May 2024

Bachelor of Arts in Computer Science

- Related Coursework: Computer Science I,II, Discrete Mathematics, Algorithms and Complexity, Computer Networks, Automata Theory and Formal Language, Software Engineering, Static Program Analysis

EXPERIENCE

Booz Allen Hamilton (Contracted through SkillStorm)

October 2024 – Present

Pega Developer

Charleston, SC

- Managed data requests from incoming pods, performing additions, deletions, and updates to TINs' information as needed.
- Led communication efforts across nine pods, streamlining data requests and ensuring timely and accurate processing.

SkillStorm

June 2024 – August 2024

Pega Training

- Successfully completed rigorous training in PEGA, earning two certifications while gaining expertise in its frameworks and best practices to seamlessly integrate into a fast-paced work environment.
- Collaborated with a team to design and implement the front-end UI, emulating the taxpayer experience and enhancing the filing process.
- Contributed to a structured development workflow, ensuring seamless integration between front-end and back-end components.

Wesleyan University

January 2024 – May 2024

Computer Networks 332: Course Assistant

Middletown, CT

- Conducted informative help sessions to assist students in understanding course materials, clarifying concepts, and addressing questions related to both lectures and homework.
- Demonstrated effective communication and interpersonal skills, fostering a positive and collaborative learning environment. In addition, actively participated in course planning meetings, contributing insights to enhance the overall educational experience.

Wesleyan University

September 2023 – December 2023

Computer Science 112: Course Assistant

Middletown, CT

- Held weekly help sessions for students to supplement their understanding of class material and assisted them in completing homeworks, and final projects.
- Graded assignments, giving feedback on implementation and coding conventions.

Audible

June 2022 – August 2022

Audible Scholars Software Engineer Intern

Newark, NJ

- Participated in weekly team meetings to stay informed on ongoing projects, collaborate on tasks, and provide status updates.
- Developed a JavaScript- and HTML-based tool enabling engineers to generate database queries dynamically, reducing search time by 50%.

LEADERSHIP

Kendo Club

April 2022 – May 2024

Financial Manager

Middletown, CT

- Secured funding for new equipment through event planning and budget negotiations with the school board.
- Taught the basics of Kendo, often leading club activities and meetings.
